

High Level Product Roadmap

Solar water heating system Development	Phase 1 (Q1) Development	Phase 2 (Q2) Development	Phase 3 (Q3) Development	Phase 4 (Q4) Development
Commercial solar heating systems	<ul style="list-style-type: none"> Design and develop commercial systems 	<ul style="list-style-type: none"> Beta test commercial systems 	<ul style="list-style-type: none"> Prepare for launch and delivery of commercial systems in Q4 	<ul style="list-style-type: none"> Launch and Delivery of commercial systems
Residential solar heating systems	<ul style="list-style-type: none"> Design and develop residential systems 	<ul style="list-style-type: none"> Design and develop residential systems 	<ul style="list-style-type: none"> Beta test residential systems 	<ul style="list-style-type: none"> Prepare to launch and deliver residential systems Q1 next financial year
App Development and Other support	<ul style="list-style-type: none"> Identify and procure multiple water tank and storage options compatible with systems Finalize all supply chain and distribution system contracts Evaluate the current product mix. Determine which products will remain and which will be retired 	<ul style="list-style-type: none"> Procure initial inventory to support systems launch Begin retirement of old systems to be phased out of product mix 	<ul style="list-style-type: none"> Design, develop and beta test commercial systems app Design residential console 	<ul style="list-style-type: none"> Launch of commercial systems app Beta test residential console Design, develop and beta test residential systems app
